A drinkin' band with a rock-n-roll problem, The Most Beautiful Losers began in the Spring of 2002 and have had their muddy boots full on the throttle ever since. A brawling, rocking power trio that is dead set on kicking your ass one minute and making you hum their songs the next, the Losers quickly began to make a name for themselves based on their awesome live shows. Influenced by old time country music, punk and southern rock, the Losers found themselves playing for the "common folk". If you have ever found yourself spending all of your money at the bar and crying in your beer about a lost love or that good job you just lost at the factory after failing your piss test, then The Most Beautiful Losers are definitely for you. Underdogs through and through, they know where you're coming from man, because they've been there too.

The band's April 2006 self-released debut album, "Playin' With Hearts" was a focused and fun collection of songs with strong songwriting and catchy music that will ring in your head for a long time to come. The follow-up EP, May 2007's JUST KILLER was five songs of powerful country rock with a major emphasis on the "rock". For 2008 the band has released the "WRISTCUTTER/ TRUE LOVE STORY" 7 Inch on MIDWEST SUPERFRIENDS RECORDS and the band has begun writing a sophomore album and will continue to tour and expand it's audience through relentless performing to an increasing number of towns and enthusiastic crowds.

Press: "The Most Beautiful Losers wear their hearts on their sleeves and obviously adore The Replacements and Lynard Skynard ... they don't cry in their beer, they spit in it!" - Tom Dawson, Columbus Other Paper

"Excellent music that makes me feel that there is still hope out there for songs written right, a little whiskey left, and dreams broken down. I would love to join this band." - Brendan Casey, DJ at WQKE College Radio New York

"I got this killer cd... it's BAR ROCK with slow personal lyrics interspersed but it doesn't detract from the quick style and southern picking. Give them a "shot"!" - Dave Royce, Hold Your Dog Breath Online zine
